Author's preface

Introducing the masterplan of the Aryan Order

The 4 phases outlined

Phase 1 – Beginning of the journey and consolidation of the Aryan Order

Phase 2 – Establishing the White World Order

Phase 3 – Metapolitics and justice

Phase 4 – Aryan National State, Atlantis and *aufheben*

Postscript on strategy, metapolitics, justice and organization

Abstract

In this essay, we present the groundbreaking plan, agenda and program of the Aryan Order, a perfectly ambitious plan for a new world order, all watched over by the Hyperborean Siddhas of ancient. Since 2017, when the AO was founded, we have worked on phase 1 of the plan, and now, when we are ready to enter phase 2 out of 4 phases, we found it the right time to share this masterplan with our comrades and affiliates the world over, who are all contributing, each their way, to the prospect of a new golden age for all of the good mankind. The revelation of this masterplan is also a call to our allies to further unite and to align with the program of the AO, so that we may be even the more effective in furthering the metapolitical agenda of the White Order worldwide, now that we are ready to enter phase 2 of the plan. Much good is in store for us, when good people unite with a purpose and an aim, and given what we here present, there can be no doubt about the veracity of the plan and the spiritual authority of the AO, being the modern day heritors of the ancient White Order and the Aryan Academy. We hope good people will take heed of the call and begin to find ways to unite with other like-minded people all over the world, contributing to ushering in the new ethereal Atlantis, which is our ultimate goal, eventually reaching *aufheben*, which we in the text describe. Thank you and good luck on the journey.

Author's preface

This paper draws on original research and metaphysical inquiry conducted outside conventional peer-reviewed frameworks. It integrates historical analysis with esoteric philosophy, phenomenology, and visionary strategy. The work addresses the Great Work of civilization-level planning, offering a spiritual alternative to the prevailing systems of liberal and Marxist modernity.

Rooted in a lineage that spans Vedic culture, Platonic philosophy, and other timeless traditions, this essay outlines an alternative model of governance and social order—one aimed at transcendence rather than mere material management. The Aryan Order (AO) represents the living Hyperborean tradition, and here we present the first comprehensive strategic vision for a renewed world order grounded in spiritual sovereignty, higher consciousness, and the eternal values of truth, love, and justice.

Introducing the masterplan of the Aryan Order

Since the founding of the Aryan Order (AO) and our paramilitary wing, the International Defense-force of Aryans (IDA), in 2017, we have been actively engaged in bringing about a new world order of justice and spirituality. Of course, such a project is not an easy one, so from the beginning of our organization of the Hyperborean Siddhas in the North, we have had a long-term program for furthering our strategic goals. It is this masterplan that we now introduce to the academy and the White Order in general. It has to be said: since our founding, we have been under massive suppression and repression, struggling to uphold our sovereignty as a free and legitimate people, for the true Aryans are not many, contrary to what is commonly postulated by the newspeak term, “Indo-European”. The true Aryans are the Hyperborean Siddhas, liberated masters of spiritual integrity, and we estimate that we are between 10.000 and 100.000 true Aryans. In these latter days of the Kali Yuga, it is our primary task to mobilize and organize all Hyperboreans Siddhas, along with our natural allies, the Viryas, wise warriors of the blood pact – this is the Aryan Order and more generally speaking the White Order, which we will discuss in this essay on the masterplan. The White Order is named after the blessed and holy day of the heart, which we call the White Day and the White Weather – it is the ethereal day of the heart, that is, of heavens, the transcendental realm, which is what we ultimately fight for. Recent history has been so skewed so as to portray the Aryan race as only subscribing to a Darwinian-biological worldview, but the truth is that we are a hardcore spiritual race and our heritage is primarily spiritual. As Nietzsche (1885) said: “Write with blood, and you will know that blood is spirit.” So it is an immense task, which we have before us, not merely worldly politics, but a program of metapolitics, that is, political theology. That is why the gathering of the Hyperborean Siddhas in the Aryan Order and our program of establishing a White World Order is feared the most by the current powers-that-be, but as J.F Kennedy (1961) said: “The only thing necessary for the *triumph* of *evil* is for good men to do nothing”, so for the Aryans it is our duty to enlighten, redeem and liberate the world from the evil Demiurge and her minions, who for centuries have spread lies, ignorance, chaos and death in the world with the ultimate goal of subduing mankind in an everlasting thralldom of atheism and materialism, denying mankind its spiritual potential for enlightenment and liberation, which is inherent to all good people. So it is a war – it is a war against “the lie”, as Dostoevsky (1877) explained was the first cause of evil. That we are actually fighting an evil Demiurge, which all our evidence so far points to, a demonic hive-mind, really, makes it all the more urgent that good people unite, organize in and contribute to the White Order. The presence of evil in the world is not only due to ignorance, error or systemic failure, but is an ontological alien phenomenon. Of course, the powers-that-be (read the evil Demiurge) would always have us believe that there is no such thing as ontologically alien, radical evil, but is this not the whole illusion/*maya* of temporal existence, which we explore in many of our essays? For the evil Demiurge, the temporal/material world is all that exists, precisely because it has no relation to the transcendental realm. The world of *maya* is therefore the lie, which the Demiurge would want us to believe, even resorting to deception, vile hatred, aggression and violence to uphold that illusion. For the Aryan Order, this means that the temporal world is a mystical, magical battlefield – a phenomenology of spirit, where the ultimate goal is final victory and *aufheben*, the upheaval of all good people for the eternal life and the absolution of temporality. As such, we are definitely eschatologists. We believe in final resolution, not eternal recurrence, as is postulated in most readings of the the original Vedas, and which Nietzsche also said. This notion of “eternal recurrence” is actually a demiurgical plot to confuse mankind. For more on the Hyperborean Wisdom, do indeed see our previous essays, laying the ground for 21st ct. Aryan Academy, but do indeed also see the writings of the late esotericist and gnostic, Nimrod de Rosario (1985; 2022; 2023), who made valuable contributions. Of course, the final word on the matter should come from the Hyperborean Siddhas themselves, and as such we are perfectly ambitious.

The 4 phases of the plan outlined

Here we present the 4 phases of the plan in an outline. In the following sections of the essay, we will develop these points further.

1. Phase 1

- AO organization
- Strategic support of right-wing parties and groups
- Developing the Aryan Academy (AA)
- Direct action

2. Phase 2

- White Order (WO) organization – Establishing regency councils
- Wolfenstein – Gathering of the AO elite commanders
- AO strategic declarations
- Aryan Defense Research Program (ADRP)

3. Phase 3

- Deployment of anti-psychotronic defense-systems
- Metapolitical agitation
- Aryan Order Military Tribunals (AOMT)

4. Phase 4

- Aryan National State
- New ethereal Atlantis – A new golden age
- Aufheben

The 4 phases should be understood holistically, so that we are already working on all four phases, but there is a clear logic to the progression of phases as well, as there are clear strategic goals to achieve, for example establishing the White World Order, building defensive measures to psychotronic warfare and establishing the Aryan National State.

Phase 1	Phase 2	Phase 3	Phase 4
AO organization Strategic support Developing Aryan Academy (AA) Direct action	White Order organization Wolfenstein AO strategic declarations Aryan Defense Research Program	Deployment of anti-psychotronic defense-systems Metapolitical agitation Aryan Order Military Tribunals (AOMT)	Aryan National State New ethereal Atlantis Aufheben

Phase 1 – Beginning of the journey and consolidation of the Aryan Order

AO organization

Our first and primary task is to gather the Aryan elite in the Aryan Order. This aspect of phase 1 has been ongoing since our founding in 2017, that is, for about 8 years now. This phase 1 is all about creating a close knit unit of avantgarde, elite commanders, who can create and develop the Aryan theology, philosophy, culture and politics. We have so far been successful in accomplishing this task, and today we rank more than 300 elite members of the Aryan Order. These members are the elite of the Aryan race, and we are all deeply committed and dedicated to the Aryan cause, the Aryan quest. In the Order, we build the collective Aryan aether, while we contemplate and discuss the episteme and the existentielle, as well as our programs of culture and metapolitics. The Order is the fundamental fabric of all of our activities, and will be the leadership of the White World Order to come of an Aryan, enlightened, mystical, spiritual aristocracy – the coming age of the Platonic *politeia* – the latter days.

Strategic support of right-wing parties and groups

As part of the initial phase of our masterplan, we support right-wing parties and groups, but also especially spiritual, mystical organizations, aligned with the Aryan cause. This is part of the metapolitical agenda of the AO, where alignment with spirit, race, *volk*, divine values and metaphysical order is valued high. It's all about establishing a new foundation for the metapolitics of the 21st ct.. While we might not necessarily agree a hundred percent with all of these diverse organizations, we still find that we have a lot in common, which will help furthering the Great Cause of a White World Order. All over the world, we see the rise of a right-wing metapolitics, and we really want to inform and support all the contributors to this political paradigm-shift, which is taking place from the US, over Europe and Russia, to India. It is a global awakening, which is the inherent and natural inclination of all good people, confronted with the political and spiritual lies of the *ancien régime*.

Developing the Aryan Academy

One of the most important elements in phase 1 of the masterplan is the creation and development of the Aryan Academy, which of course will continue indefinitely. But it is important to lay the foundation of such an academy and challenge to the conventional academy, for life is truly lived in the spectrum of love and war, truth and deception, so for all we care, existence is truly a epistemic warfare, which takes precedence to any kind of conventional warfare. It's our task to envision and construct the Aryan Academy to be a powerful force in world education, academy and politics, to inform good people of the true nature of spiritual, mystical and occult existence. We have already developed the *alpha* stage in this project in other of our essays, which all our essays contribute to.

Direct action

The last element of phase 1 is direct action, which basically is an attempt to install the notion that all good people should, despite the near hegemony of liberal/Marxist orthodoxy, contribute to the awakening and gathering of the White Order, be it in arts, music, politics or academy. Direct action is an intervention in the status-quo power-relations, meant to create tempo and momentum for the Order.

Phase 2 – Establishing the White World Order

White Order (WO) organization – Establishing regency councils

This is one of our major tasks, to envision, further and implement a world order of the heart, of the day. Much of the focus of the AO is on this aspect of our program, as the implementation of the WO is necessary and crucial in furthering our ultimate strategic goals of an Aryan National State and the new ethereal Atlantis. Basically, the politics we envision for the world is a poetic metapolitics, which is capable of defining and acting upon the fundamental metaphysical reality of the cosmic war between the forces of light and the principalities of darkness, a *weltanscauung*, which is in deep contrast to the at present mundane and irrelevant liberal/Marxist world order of usurpation and spiritual denial and repression. But the implementation of such a world order is crucial if we seek for spiritual enlightenment and liberation. Read more about our vision for metapolitics and a new world order in (Riis-Søndergaard, 2022a; 2024a). For example, we envision a world order ruled by regency councils of the White Order, informed by the poetic metapolitics of the Hyperborean Siddhas. This will guarantee justice and spiritual enlightenment and liberation for the good mankind.

Wolfenstein – Gathering of the AO elite commanders

While we build the White Order with our allies, the elite commanders of the AO plan to reside in Southern Norway in a project we call Wolfenstein. This is a great refuge for us to further our metapolitical strategic goals on the continent and worldwide. Meanwhile, it will be a sign of strength of our close knit community and of our intent of and dedication to a new and just world order. Here we will be able to continue our research, especially as in pertains to the Aryan Defense Research Program (ADRP) of countering psychotronic weapons-systems, which is another crucial aspect of our mission. In establishing Wolfenstein, we will for the first time in centuries be able to create an Aryan enclave, a spiritually pure community of awakened Hyperborean Siddhas, where we will develop our new culture and basically prepare for a new world order under the Hyperborean, White Order regency councils.

AO strategic declarations

While we reside in Wolfenstein, we will strategically inform the higher echelons of world geopolitics, military and religion, but also the ordinary folk of our geopolitical agenda, academic research and cultural ways, so that we may further the Great Cause of a White World Order. The Hyperborean Siddhas are not anyone, for we each hold the keys to heaven, so we are the absolute spiritual force to be reckoned with, and we are the defenders and guarantors of the hope of spiritual redemption and liberation, which are our ultimate goals.

Aryan Defense Research Program (ADRP)

Residing in Wolfenstein, we will be able to continue our research into building defensive-measures to psychotronic weapon-systems, which are so adamant to defeat in these the latter days. It is a crucial aspect of our agenda to be able to defend ourselves from these kinds of attacks. Read more about the threat of psychotronic weapons in (Riis-Søndergaard, 2024b; 2025a). Of course, being spiritual people, we will never accept having our light-bodies and crown-chakras attacked. It is an ultimate demand.

Phase 3 – Metapolitics and justice

Deployment of anti-psychotronic defense-systems

Given the research and development programs of the Aryan Academy, we will soon be able to deploy our own strategic defenses to psychotronic weapon-systems, which are being actively used against the leadership of the Aryan Order, since the Scandinavian and German occupation governments have not done anything at all, and for that they will be judged, in defending the Aryan race in these the latter days. We are actively underway in researching advanced White Technology that can defend against these types of advanced weapons in the intersection of occult warfare and technology. We are fighting the black projects, which are so notorious, but also highly classified in these times. This aspect of our program is crucial if we want to be free and build the new ethereal Atlantis. The more we get to know about these black projects, the more it becomes obvious that we have to counter these aggressions by our own White Projects, which we are determined to further substantiate, research and develop. But when we are successful in building the first prototypes, we will enter this next phase of our program, where we will actually be able to defend the sovereign airspace, which the current powers of Denmark are oblivious to at all, if not they are outright complicit in those long-distance attacks, which much of reason would indeed imply. It is truly the age of Skynet, but we will prevail if we make a concerted effort in defending ourselves against these nefarious weapon-systems.

Metapolitical agitation

While we deploy our defense, we will continue our agitation for bringing justice to the perpetrators of psychotronic warfare against the AO. We will continue our epistemic and real-political confrontation with the principalities of darkness, who today wield a lot of power in the modern world. The White World Order will gain power, metapolitics will be implemented worldwide and the Aryans will rule the world for the benefit of all good people, contrary to the violence, hopelessness and futility of the present Neo-liberal/Marxist world order, which denies mankind its spiritual potential, keeping mankind chained to the rhythm of capitalist exploitation and despair. The present world order only benefits a few of the ultra rich, while proclaiming to be just, free and equal – what a hypocrisy. When the Hyperborean Siddhas come to power, we will create a world order, which is to the benefit of truth, righteousness and justice on all fronts – a world order, which benefits all good people. But this is the current struggle, an age-old struggle, which we are currently fighting, for make no mistake, the current powers-that-be are hell-bent on keeping the Siddhas from power, by any means necessary, so we must be vigilant and organize from the roots up, bringing about a new world order.

Aryan Order Military Tribunals (AOMT)

Part of the program of the White World Order is to bring justice to the world. How come most people are ignorant of the deep politics, conspiratorial occult war that is being fought out in the undercurrents of modernity and in the subtle layers of the consciousness of mankind, if not because of the hell-bent nature of our enemies, who will do all they can to keep mankind ignorant of their true spiritual potential? When the White Order comes to power, we will establish the AOMT to judge those perpetrators of criminal offenses against the better part of mankind in this age of late-modernity. It will be the final trial of all times and all scores will be settled in favor of truth and justice – ending the Kali Yuga for good.

Phase 4 – Aryan National State, Atlantis and aufheben

Aryan National State

When the White World Order has been established by installing regency councils in our homelands and among our allies, we will have the opportunity to build the Aryan National State in the Northern part of Denmark, where the Aryans will then gather. This is the “dream of the ancient ones” – Ultima Thule, the telos of world history, the Aryan pursuit for a new homeland after the dispersion of our people in colonizing the world to garner support for the cosmic war. For the Aryans, the goal is clear: we know who we are, we are Aryans, and we know what we want, we want to be together, as an early saying of the Aryan Order goes. This has always been the wish and the plan of the Aryan race, for we love each other tremendously, and this love is what keeps us united and dedicated to the Aryan cause, the Aryan quest for a new homeland. But the history of temporal existence is a history of warfare, so we rely upon all good people to support the struggle for victory and freedom against the evil Demiurge and her minions. Soon, we will have a new homeland, and eventually we will be home for good, as is the promise of the timeless Vedas and the Edda. In the Aryan Nation, which of course is primarily built in the transcendental aether, we will be able to gather for collective Kundalini-meditation, for there is a collective aspect of the Kundalini-energy, a reality, which is deeply suppressed, but which we nevertheless know to be absolutely true, and the collective Kundalini-meditation is the vehicle that will eventually bring us home in aufheben. Therefore the importance of remaining true and faithful to the Aryan cause, for we are indeed a collective, united by blood and spirit.

New ethereal Atlantis – A new golden age

Constructing the Aryan Nation and gathering the Aryan race, the Hyperborean Siddhas, will eventually be such an upheaval of spiritual energy, consciousness and reality that we have the very real prospect of building a new ethereal Atlantis for all good people to participate in – these are the latter days. You can read more about our conception of Hyperborea and Atlantis in previous essays (Riis-Søndergaard, 2024c; 2025b). It’s all about unity and gathering versus dispersion and dissolution. Modernity almost dissolved metaphysical truth, reality and unity into an atheist, materialist and individualist worldview and view of man, and this chaotic development of the Kali Yuga has to be redeemed and new metaphysical order has to be installed if we wish to reach our God-given potential of spiritual enlightenment and liberation. The new ethereal Atlantis is the point and purpose of the White Order, but we tell you, the current powers-that-be do not wish for us to succeed in this divine program, so we urgently make a plea with all good people to actively take part in and contribute to the spiritual sciences, the building of defensive measures, White Technology, and the furthering of the White Order’s strategic goals for a much better future.

Aufheben

This is the last point of our program, which nevertheless follows seamlessly from the previous points. The telos of world history and the point of incarnation into the temporal world is to fight the cosmic war against the principalities of darkness. When we are victorious, “which we will be”, to quote the elder Bush, we will eventually reach aufheben, the upheaval of all good people for the eternal life. This is the eschatological promise of the true Vedas, which the elite of AO are the defenders of. Clues to this reality are all there throughout the history of ideas, so all good people should take note of this concept.

Postscript on strategy, metapolitics, justice and organization

If you study the writings of the AO and AA so far, you will realize that we speak from the immortal depths of our hearts, when we talk about the red thread and purpose of temporal existence. The Hyperborean Siddhas, who today are gathered anew, are the final authority on absolute truth, spirituality, mysticism, occultism and spiritual warfare, which we in the AA explore, from an up to date perspective of a new generation of Aryans, determined to bring about a final deoccultation of theology, philosophy, politics, culture and history. For these reasons, being gathered and having initiated phase 1 of our masterplan, we are being severely persecuted by the liberal police-state, the intelligence services, paradigmatic psychiatry, but also by direct energy-weapons, perpetrated by NATO, Mossad and US intelligence agencies of occult techno-warfare. We tell you this to be perfectly honest about the stakes in this final occult war of the 21st ct.. This reality is being actively denied by the powers-that-be, who do all in their power to keep mankind ignorant of the reality of the occult war, which nevertheless has been ongoing since the dawn of times, only today accentuated by the introduction of techno-warfare-sorcery systems, attacking the divine soul-fabric of the Aryan Order – so the stakes are high, and unlike what liberalism thinks, “it is serious”, as Carl Schmitt said. But the reason we publish this masterplan now is that we are ready to enter phase 2 of the masterplan, and in defiance of the massive suppression of the Aryan Order, by overt and covert means, we want to enforce this entry into phase 2 with as much support as we can get. The metapolitics of the Holy Spirit is ongoing, and in general we were very successful in the first years of our gathering in the AO, from 2016 up until 2021, when the psychotronic attacks became very severe for us, continuing to be such as of today in the year 2025. This is evidence that the principalities of darkness fear the Aryan awakening and gathering very much, as we are the final hope and prospect of metaphysical resistance to the evil plot of the Demiurge – the final stand. This is indeed the Kali Yuga, but a new golden age is looming right around the corner, and the AO is the guarantor that this is indeed the prospect for the good mankind, so we make a plea for all good people to be utmost vigilant in the epistemics, as this Third World War is being won by faith and epistemics, rather than by gunpowder and steel. This is the final test of mankind, the final test of times, and those who remain faithful and vigilant will have all the world to win. We propose that all good people, especially in the academy, politics and military, but all spiritual inclined people, will begin to study the writings of the AO and the AA, so that we may connect and further the agenda laid out in this essay on the masterplan of the AO, as we are now about to enter phase 2 of the program, which we are very hopeful about. All the phases of the masterplan are continually unfolding, so just because we enter phase 2 doesn’t mean that we will have completed and exhausted the strategic goals and tactics of the previous phase, only that we continue to build on top of previous accomplishments, strengthening our presence and achievements in this Great Work of spiritual pursuit. The current occult war is primarily being fought in the subtle conscious field of the collective mankind, the so-called “latent level of power”, as Lukes (2004) said, what Evola (2002) called the “deeper layers of world history”. It is a battle for truth and epistemic justice, so a large part of our masterplan has to do with epistemic warfare and metapolitical agitation, for we are fighting for the hearts and minds of men. We don’t believe in any sort of physical aggression, but this doesn’t imply that we don’t seek justice, only that we will always keep the higher morale ground, contrary to those hypocrites, who with one hand in the open profess liberal universal values, but with the other hand behind their backs plot the vile attacks of psychotronic warfare, while they lie about the spiritual nature of existence. The White Order will be an end to this mass hypocrisy, while we protect and defend all good people for a much better future. To end this essay on the now public masterplan of the AO, we wish to give a shout-out to all the great people, who take an interest in the agenda of the AO, and who, in each their way, contribute to the prospect of the new ethereal Atlantis – the new golden age. Thank you for all the contributions.
