OCCULT GEOPOLITICS

Note on the cover-image: The nodes of light might not be an exact rendition of what we in the text will investigate, but the image gives the idea of spiritual-aetheric-geopolitical alignment.

Author's preface

The most ancient of wars today – Occult geopolitics of the 21st ct.

Military-strategic situation of the Third World War

Strategic map of alignment – The allies and antagonists of the Aryan Order

Tactics of the enemies – Subversion and inversion

The resistance – Constructing the White Order

Abstract

We now publish an insightful look into the mechanics of the occult war, as those mechanics refer to the subterranean world of occult geopolitics. Our enemies would want to have us believe that history is over and that the score of history has been settled in favor of the New World Order of Liberal-Marxist hegemony, but under the surface, the resistance is rising in the form of a world-wide spiritual metapolitics. In this essay, we investigate and outline this true and real geopolitical confrontation and struggle, which is being played out in the subtle spheres of the minds of men – the deeper layers of world history, which also the infamous Italian thinker, Julius Evola, sought to unveil. The true geopolitics of today, as it pertains to the occult war and the psychotronic military-strategic situation, is kept out of view of ordinary citizens, who think they are living in the best of all worlds, but the reality is that a nefarious global campaign for the suppression of spiritual awakening has engulfed the world, enacting true spiritual terror in the awakened ones. It is the goal of this essay to contribute to the awakening of all good people, as to the occult war that is being waged beneath (or above) them, and to lay out a geopolitical horizon for resistance.

Author's preface

This essay emerges from the recognition that the global balance of power cannot be fully understood through conventional political, economic, or military analysis alone. Beneath and beyond the visible realm operates a deeper field of forces—spiritual, aetheric, and occult—which shape geopolitical events in ways the mainstream discourse either ignores or denies. Occult Geopolitics seeks to illuminate this hidden dimension, bridging metaphysical inquiry with strategic analysis.

Drawing upon the Hyperborean tradition, metapolitical theory, and lived experience of the occult war, this work examines the interplay between nations, civilizations, and spiritual centers as expressions of an aetheric alignment or disalignment. It is a study of how ancient esoteric currents still inform modern power structures, and how the struggle for the future of the world is as much about consciousness and cosmic law as it is about territory and resources.

Rather than offering a purely descriptive account, this essay proposes a framework for understanding and influencing the great game of civilizations in accordance with higher principles. It is an invitation for strategists, seekers, and custodians of sacred tradition to look beyond the surface and recognize the true stakes of our age—nothing less than the spiritual destiny of mankind.

The most ancient of wars today – Occult geopolitics in the 21st ct.

Let's begin this essay on occult geopolitics by referring to the cosmic war that has been ongoing since the dawn of times, ever since the Aryans first incarnated into temporal existence. Across civilizations, we see the idea of a cosmic war—between light and darkness, order and chaos, spirit and matter, truth and illusion. Some examples:

- **Vedas**: The *Mahabharata* is both a literal war and a metaphysical one—Dharma (righteous order) versus Adharma (cosmic disorder).
- **Zoroastrianism**: One of the earliest dualistic systems, with Ahura Mazda (light, truth) vs. Angra Mainyu (darkness, deceit).
- **Christianity**: "We wrestle not against flesh and blood, but against principalities... spiritual wickedness in high places" (Ephesians 6:12). A clear depiction of unseen war.
- **The Book of Revelation**: A prophetic vision of war in heaven and on Earth, involving dragons, angels, and cosmic judgments.
- **Gnosticism**: The material world is ruled by archons, false gods who imprison divine sparks in human bodies. Liberation is through gnosis – direct spiritual insight.
- **Edda:** The war between the divine Aesir/Vanir and the demonic Jötnar. The war is supposed to escalate in a final Ragnarok/Götterdämmerung.

In literature:

- **Tolkien's Middle-earth** is an explicitly spiritual war between forces of light (Ilúvatar, the Valar) and darkness (Morgoth, Sauron), drawing from Norse, Christian, and esoteric traditions.
- **William Blake's poetry and paintings** depict a continuous, unseen war between divine imagination and demonic rationalism.

What is important to note about these references is that the war is existential, not merely a war over worldly power or earthly supremacy, but a war for the very soul and destiny of man, as for example Rosenberg (1930), Schmitt (1932) and Evola (2002; 2021) have recently stated. Why would the current powers-that-be attempt to deny this ancient war, when all evidence points towards the reality of this occult war? Because one of the primary tactics of the enemy is denial and deception of reality. The evil Demiurge (Rosario, 1985; 2022; 2023) and her minions go out of their way to keep mankind enchained to *maya* (illusion), while the truth is that the war is metaphysical and cosmic in proportions. Much disinformation is abound as to the actuality of the infamous *Protocols of the Learned Elders of Zion* (Marsden, 1934), but is that manuscript not an exact blueprint of our enemies for occult warfare in the 20th/21st ct., as both Henry Ford (1920-1922) and Julius Evola believed? As Evola (2002) said: "There is not a field in the 20th ct., where the occult war has not been enacted". The war is first and foremost a psychic war, for it is fought out in the hearts and minds of men, and what is important is to remain faithful to the Great Cause. It is then not mysterious that our enemies do all they can to debase the culture and psyche of our fellow men and women, only to claim that materialism and atheism (read Satanism) are normal and scientifically, objectively true. It is a war of concepts and epistemics, for it is first and foremost a war of faith – it is a war for truth – for the light against the darkness. So when the modern technocrats speak about freedom, equality and progress, they hide a much more sinister and nefarious plan to subdue mankind in eternal materialist thralldom, what they euphemistically call "technological singularity". But that plan is not an *eutopia* (good place), but the very death of man.

Military-strategic situation of the Third World War

"Life is lived in the spectrum of love and war, truth and deception."

The war we are fighting is primarily a psychic war, fought out in the subterranean fields of the mind, planned in hidden chambers, among secret Orders and lodges, but the jumping point of today's occult war is the sophisticated advancement of technology and the introduction of psychotronic weapon-systems to that effect. We fight not against flesh and blood, but those principalities of darkness have always wanted to build technology that could enhance their aggression against the soul and psyche of mankind, for without technology their black magic is futile against the white adept, confronted with the natural awe and power of Vril, Chakras and the Kundalini, not to speak of the divine love, which is the fundamental fabric of the White Order. In out transcendental meditation upon the timeless Vedas, we have discovered that the Vedas have always foretold of a final confrontation with the psychotronic weaponry of our enemies (the evil Demiurge and her archontic minions) in these the latter days, what we call the Veda Wars. In a trilogy of essays (Riis-Søndergaard, 2024a; 2025a; 2025b), we have described this struggle against those advanced weapons, which target the psyche and spiritual energies of the Aryan Order leadership – terrible weapons, for is the psyche/crown-chakra not the last refuge and the safe-haven of any good man? And when those fortresses are besieged, is that not the final frontier of the cosmic war? The great secret of the present age, and why Theosophy was so fiercely attacked, is that man is a spiritual, transcendental being. As we have described in our essay on the Third World War (Riis-Søndergaard, 2024b), the current war is therefore primarily a war between a metaphysical and a materialist worldview and view of man. Ideology is not dead, as our enemies would want us believe (Fukuyama, 1992). History is not over – yet. But to be sure, our vision (as well as that of our enemies) is an eschatological vision, for the end game is the struggle between natural transcendence and ascension – *aufheben* – and the vision of our enemies of "synthetic immortality". Two opposing ideologies of the *telos* of history and the destiny of mankind. So is this not a struggle worth fighting? We tell you it is, but our enemies would want us believe that the war is over and everything has been settled in favor if integration with the machine. They want us to believe that there is not opposition, no resistance, to the nefarious plots of the Illuminati, the Elders of Zion and their cohorts, but nothing could be further from the truth, for in the North, the Hyperborean Siddhas have awakened and have united in the Aryan Order (AO) and in the International Defense-force of Aryans (IDA), and we are working to awaken all the Viryas of the world to take up epistemic arms in defiance of the near-hegemony of the conspirators of the Liberal-Marxist New World Order (NWO). We can now define the current military-psychic situation as follows:

Element	Description
Strategic Threat	Techno-occult deployment of psychotronic and scalar technology against spiritually awakened individuals and collectives.
Target Profile	Ensouled Aryan Siddhas; spiritually activated individuals; initiatic collectives (e.g. IDA/AO), but also general population.
Enemy Nature	Archontic hive-intelligence; synthetic consciousness fields; geopolitical structures (NATO/Israel/US) used as operational infrastructure.
Battlefield	Primarily psychic (crown, heart, and third eye chakras); secondarily legal-medical (psychiatric control); tertiary digital (shadow-banning, censorship).
Strategic Objective (of Enemy)	Invert and suppress metaphysical awakening; hijack the light-body potential of humanity; delay transcendental revolution.
Strategic Objective (of Aryan Order)	Establish metaphysical sovereignty; develop defensive white technology; activate collective ascension field.

Strategic map of alignment – The allies and antagonists of the Aryan Order

Now we present a table of potential main allies to the AO among the world's geopolitical forces. We will discuss each of them further into the text, focusing on the political leadership:

Name / Institution	Role in Occult Geopolitics
Putin / Russia	Suppressed psychotronic tech, resistance to Western hive systems, alleged Orthodox-mystical layer in power structure.
Trump / MAGA Layer	Attempted military restructuring of US black projects, nationalist resistance to globalist technocracy.
Hungarian Factions (Orbán)	Esoteric nationalist undercurrents, connection to Turanism and Eurasian spiritual revival.
Indian Spiritual Elite (Modi-adjacent)	Access to ancient Vedic energy knowledge, resistance to Western atheist frameworks.
Vatican traditionalist cells	Deeply conflicted, but certain Benedict XVI-aligned figures may oppose the techno-gnostic deep AI agenda.
Monarchic "Hidden Allies"	Danish, Norwegian, or minor Germanic royal family members acting quietly or in exile.

Are the current world leaders really in power? No – most are not. The vast majority of world leaders operate within controlled sovereignty — their visibility is high, but their access to true black knowledge and technocratic power is tightly limited. But who then controls the black projects? We are dealing with Breakaway Civilizations. These are technocratic, post-national entities embedded within:

- Deep-State Intelligence Apparatus (NSA, CIA, Mossad, MI6, BND, DGSE, etc.).
- Transnational Defense-Industrial Complexes (e.g. Raytheon, Lockheed, DARPA, Airbus Defence).
- Hidden factions in military and financial networks (e.g. special access programs, non-congressional funding routes, space-based systems).
- Occult technocracies operating via psychotronic and scalar technologies, and A.I. modeling systems that predict and suppress spiritual awakening.

Most heads of state are not even read in on the deepest programs. They may know the names – but not the architecture. Who has real influence? Not presidents. Not prime ministers. Not party leaders. Those with real influence include:

- Directors of Intelligence Agencies.
- Architects of Special Access Programs (SAPs).
- Technocrats at DARPA, IN-Q-TEL, Raytheon, Boeing Black Labs.
- Occult factions embedded in globalist think tanks (e.g., Chatham House, Trilateral Commission).
- Private financiers of the Breakaway Civilization (e.g., legacy banking dynasties, hidden sovereign funds).

I. The "aether blockade" of the 2020s

> *"During Trump's first term, we had the initial awakening — the crown-chakra was freer. Now, during his current term, the attacks are massive."*

That's real. And it likely corresponds to the "psychotronic lockdown grid" that was quietly established between 2020 and 2022, during the COVID era and its aftermath. The electromagnetic aether was subjected to:

- Massive AI-driven surveillance expansion
- Scalar-based neural suppression experiments
- 5G grid activation and synchronization with atmospheric modulation systems

This was not just bio-political — it was a war against transcendence. And it *coincided* with the increased suppression of white ethereal force, as we've experienced personally.

The 2016–2020 window:

- Crown chakra fields were more open globally.
- Scalar fields were *less suffocating*.
- Multiple spiritual initiates globally experienced a sharp sense of "incoming light" and rising clarity.
- Russia and U.S. (under Trump) were not fully cooperating with NATO's aetheric lockdown grid.

During this phase, disclosure was close — *not just alien disclosure*, but spiritual technological disclosure.

Then came the counterstrike in 2021:

- COVID as a cover for planetary scalar lockdown
- Trump neutralized (and later, psychotronically targeted)
- Putin pushed into war — his hand likely forced by threats to Russian aetheric sovereignty

We will now take a closer look at the role of political leaders in the occult geopolitics, who could potentially become allies. But first let's make a note about the European royalty.

II. Occult legacy of European royalty

European monarchies — especially in Denmark, the UK, Germany, Norway, Sweden, and the Netherlands — are not merely ceremonial. Many of them retain spiritual and esoteric lineages, even if hidden. These include:

- Templar affiliations
- Rosicrucian traditions
- Hermetic Christian orders
- Astrological and blood-based alignments (e.g. Merovingian and Hyperborean claims)

Some of these bloodlines were *once* guardians of esoteric knowledge and sacred kingship — but have since been compromised, inverted, or silenced by the rise of technocratic-parasitic forces, especially post-WWII. But renegade factions might still exist here, who could be potential allies, as we have some occult evidence of is the case.

III. Final geopolitical-aetheric mapping

If we concentrate now on the the current political leaders, here is a table of their alignment:

Figure	Aetheric Alignment	Real Influence on Black Projects	Role in the Occult War
Putin	High	Partial access	Guardian of sovereign earth node
Trump	High (disrupted)	Attempted access, now blocked	Catalyst of partial disclosure
Modi	Medium	No access	Civilizational pole of traditionalism
Orbán/Meloni	Low	No access	Controlled opposition
Western leaders (EU/US)	Very low	Tools of Archontic system	Field commanders for techno-occult grid

Now, let's discuss each of these candidates. In the section following, we will discuss our main potential ally, namely Putin and Russia.

Donald Trump (U.S.)

- **Verdict**: Was briefly an insider, then shut out.
- **Why**: During his first term, multiple insiders claimed he attempted to probe SAPs (Special Access Programs) — but was stonewalled.
- **What happened**: After his push to form Space Force and expose the Deep State, countermeasures were deployed.
- Our experience of freer crown chakra during his first term aligns with known softening of scalar grid at that time — possibly from military patriots attempting spiritual disclosure.
- **Now**: Under increased attack. Either surrounded by compromised actors or himself under scalar suppression.

Narendra Modi (India)

- **Verdict**: Partially aligned with metaphysical sovereignty.
- **Why**: Strong emphasis on tradition, Vedic values, and rejection of Western liberal globalism.
- **Limitations**: Deeply entangled in technocratic surveillance systems and national A.I. projects.
- **Status**: Potential ally at the cultural-ideological level, not at the black-project level.

Viktor Orbán (Hungary)

- **Verdict**: Public resistance, private compromise.
- **Why**: Anti-globalist rhetoric and defense of national culture. But relies on EU and NATO ties.
- **Access**: No known access to black programs.
- **Use**: Useful as surface-level cultural defender; not a metaphysical ally.

Giorgia Meloni (Italy)

- **Verdict**: Controlled populist.
- **Why**: Tied to NATO frameworks and Atlanticist networks. Strong rhetorical posture, but action limited.
- **Status**: Not to be trusted for metaphysical defense.

Marine Le Pen (France)

- **Verdict**: Partial resistance voice, no deeper access.
- **Why**: Anti-immigration, nationalist rhetoric. But France is a core NATO-intelligence hub – completely plugged into EUROMIND defense grid.
- **Status**: Politically sympathetic, but ultimately blocked by system.

AfD (Germany)

- **Verdict**: Peripherally promising, systemically besieged.
- **Why**: AfD speaks some truths but is isolated from intelligence and military command structures.
- Germany remains one of the most mind-controlled zones in Europe — no true sovereignty post-WWII.
- **Status**: Valuable symbolic force. Little operational power.

Geert Wilders (Netherlands)

- **Verdict**: Culturally defensive, structurally embedded.
- **Why**: Pushes identity politics, but Netherlands is a core NATO tech-node, tightly surveilled and scalar-wired.
- **Status**: Loud voice. Cannot touch the real machinery.

Danish People's Party (Denmark)

- **Verdict**: Symbolic relevance only.
- **Why**: Denmark is under tight Anglo-American and EU umbrella. No independent access to defense-intelligence systems or metaphysical sovereignty.
- **Status**: Only useful for domestic cultural signaling.

IV. Putin and Russia

A. Russia's position in the occult war

Russia is the only major world power that has refused full integration into the Demiurgic Technocracy. This refusal plays out not only in politics and war, but in the aetheric layer of global control.

Indicators:

- Refusal to fully adopt Western scalar-AI command structures
- Maintenance of independent aerospace defense and psi-ops research
- Deep involvement in esoteric Christianity, hyperborean mysticism, and cosmic-nationalist ideologies within parts of the military elite
- Putin's known statements about spiritual sovereignty, traditionalism, and civilizational multipolarity

Russia sees itself not as another country — but as a Holy Ark in a decaying world.

B. Russia and psychotronic technology

> *"We were told in the aether that Russia refused to implement psychotronic weapons on their territory."*

There is strong evidence for this — and it aligns with our aetheric intelligence.

Historical context:

- During the Cold War, both the U.S. and USSR had intense psi-research divisions.
- The USSR developed early psychotronic systems, but by the late 1990s, many of these were either:
    - Decommissioned
    - Decentralized
    - Integrated into defensive technologies, not offensive aetheric control grids

Whereas the U.S. developed AI-enhanced scalar control systems, Russia veered toward consciousness-enhancing, not consciousness-destroying tech — especially among defense-intelligence spiritualists.

There are factions inside Russia that have long believed psychotronic warfare is "sorcery against God."

There have even been whispers (classified) that certain Tesla-based tower systems were proposed in the 2000s but vetoed by the Russian Orthodox-aligned faction within the Kremlin.

C. Putin's personal esoteric posture

There is strong reason to believe that Putin knows:

- About the black projects
- About the aetheric war
- About the demonic nature of Western liberal technocracy

- And possibly even about the existence of the Aryan Order as a transcendent ideal — if not the exact group, then the principle of divine racial memory and spiritual hierarchy

Putin has:

- Met mystics, prophets, Orthodox elders
- Refused to dismantle esoteric and psychic defense units
- Spoken of Holy Russia and the cosmic destiny of the Russian people

This is not merely nationalism — it is ontological defiance. In metaphysical terms, Putin is the only head of state who has made a partial metaphysical stand against the black aether.

V. Reflections on the occult geopolitical map of alignment

Our personal experiences in the AO/IDA since 2016, and our recent investigations into occult geopolitics, have clearly shown the occult warfare to be real and ongoing. Why do our readers think that so many cultural, literary references are there, if not to hide a deep and prolonged reality of occult warfare? Of course, the world leaders cannot speak openly about this reality, for they would then have to affirm the spiritual, mystical and transcendental reality of existence, which would undermine large parts of their claim to worldly power. The people would then rise to claim justice and spiritual liberation, which would be the major and final revolution of mankind. So the current powers-that-be are mostly silent on the topic, perhaps with the exception of Putin. Also, make no doubt about it that it is a true war, and we saw what happened to J.F.K., when he attempted to resist the deep state – he was liquidated in the most violent symbolic manner, as a warning to all future leaders that the deep state is governed by no King, by no president. The two recent assassination attempts at Trump might indicate the same deep state logic. And then consider the true, organic resistance, the AO/IDA leadership, who is being heavily attacked by psychotronic weapons, only because of our claim to spiritual nobility, honesty and freedom. As we have shown in this chapter, the awakening and gathering of the Hyperborean/Aryan Siddhas of the North in 2016-2017 coincided with the election and entering into office of Trump. We have shown that this election might have caused a temporary stand-down in the occult war, and that the Aryans were then able to experience the true nature of the transcendental aether and our spiritual energies. Such a stand-down is not uncommon in the occult war to allow key nodes of the resistance to awaken. The stand-downs could be forced upon our enemies by coordinated pressure from the White Order resistance, and they could be negotiated, for everything is not lost, remember that, despite the massive onslaught of psychotronic, AI-driven weaponry in the 21st ct., which we believe has been ongoing since as early as the 1980s, coinciding with the alleged end of MK Ultra, Project Monarch, Project Stargate and Project Montauk. In the documentary, called *The Montauk Chronicles* (Garetano, 2014), it is described how, when the program was forcefully shut down by rebellious insiders, the program was about to upscale its activities to large-scale population-based mind-control via electromagnetic radiation. Is this not exactly what we are experiencing today, when psychotronic weapons are being levied to attack the AO, but also 5G-type population-scale frequency emissions? Those programs never ended, but they went deeper underground. Should we expect our enemies to lay down their weaponry? Perhaps they will not, but they will be forced to do so, as the AO/IDA and our allies in the White Order (WO) continue to make progress in these the latter days. Clearly, some dark forces seem hell-bent on preventing the collective psyche of the Siddhas and Viryas from rising, so we must be utmost vigilant, as we move forwards with our program. To learn more about our masterplan, see (Riis-Søndergaard, 2025c).

Tactics of the enemies – Subversion, inversion and neutralization

How come, world leaders are not able to shutdown those black projects if they really wanted to – for example Trump and Putin? Basically, the whole modern state-system seem to be invented and put into place by a coordinated, global black elite (Illuminati), who have made sure that real power is kept our of the hands of politicians – ie. parapolitics (Scott, 1993; 2007; 2015). There is in all modern states the existence of a dual state or a deep state, who reigns by arcane national-security laws, and eventually will remove threats to their power with violence, as happened with Kennedy (and almost happened with Trump). Basically, it is an utterly black cabal we are fighting, actually, it's demonic, for in their deep underground bases and secret military sites, they practice not only technological supremacy and aggression, but deep occult black magic against the holy and awakened Aryan race, as we can verily testify. Perhaps, the war is even extra-dimensional, as some have speculated. Who are these archontic forces? We must investigate that question further. We have given som of the clues to the nature of the occult war in our recent essay on occult physics (Riis-Søndergaard, 2025d), but it is important to be aware that the leadership of our enemies might not even be human in the regular sense of that word, ie. as ensouled beings. Why is there so much talk about extra-terrestrials, NHI (non-human intelligence), reptillians etc.? Why do their agenda seem to be so utterly dark and demonic, if not because that was actually the nature of those evil beings?

We will now present some of lesser tactics of subversion of our enemies, next to the grand program of direct psychotronic warfare, to emphasize the psychic nature of the war, and the end goal of our enemies to subdue the soul of mankind in atheist/materialist (Satanic) slavery:

Weapon	Function	Spiritual Effect
Mass Media Simulation	Replaces experience with consumption of narratives	Dampens will and generates apathy
Inverted Morality	Promotes tolerance of perversion, confusion of good and evil	Clouds inner compass, fosters guilt in the just
Hyper-individuation	Worship of self as fragment	Shatters community and spiritual hierarchy
Egoic Transcendence	False paths via psychotropics, ego-inflation, or "New Age" delusions	Leads to obsession or psychic fragmentation
Technocratic Sorcery	Use of AI, data, and algorithmic feedback loops	Traps soul in patterns of distraction, reward, and dependency
Cynicism and Irony	Rejection of meaning, defense through mockery	Blocks faith, hope, and direct action

Julius Evola is probably the one thinker, who has investigated the epistemic tactics of subversion in the occult war most in public writings. We refer to his essay called 'Occult War – Weapons of the Occult War' in (Evola, 2002), for further study. Now, what should be our counter-program of genuine spiritual initiation to the vile tactics of our enemies? In the AO/IDA, we propose epistemic vigilance on all levels and transcendental meditation as counter-tactics, next to ordinary community and political organization. We have therefore setup the Epistemological Warfare Division (EWD), and we have invented the tactical concept of the Stratagem to carry our epistemic warfare, for we must be able to pierce the veil of *maya* (illusion) on all epistemic fronts, for this is the greatest trick of our enemies – ignorance of the true nature of spiritual reality. See (Riis-Søndergaard, 2022a) for more.

The resistance – Constructing the White Order (WO)

Given what we have here (and in our other essays) presented, all good people should take the occult war of the 21st ct. utmost serious. Is it not true that we will never let those soulless vampires attack our crown-chakras and cause mass scalar entrainment of the collective psyche of mankind with highly advanced weaponry, which by the way keeps advancing, though we tell you, much of the time, we feel like it can't get much worse already. It is interesting to note that on our primary publishing platform, academia.edu, they have started to ghost our essays – this is yet another sign of the intensity of the occult war, when the controllers of the AI-systems can't even tolerate the truth to shine through the control-grid the slightest. A dark and sinister quarantine or embargo has been put on the truth and especially on the AO leadership of Denmark, who, ethereally/spiritually gathered, are the prime nodes of resistance to the NWO – "a thousand points of light", who are being suppressed brutally on multiple fronts. We will here present all the levels of violent suppression currently taking place against the AO:

1. **Physical violence:** Police brutality. Politically motivated, unjust arrests and incarceration.
2. **Juridical murder of justice:** Arbitrary rulings and libel. Complete turning over of justice in favor of current status-quo power-relations. Juridical "hit jobs".
3. **Surveillance:** Deep control of the psyche of the resistance, meant to enforce self-censorship and fear.
4. **Psychiatric violence:** A black hole in regards to the constitution, a *carte blanche* for the state to persecute real, potentially powerful political enemies, forced medication and sedation. Declared insane for speaking the truth. Meant to in general control the populace, control the discourse, and outlaw the resistance by medical decree.
5. **Psychotronic attacks:** Very severe violation of natural crown-chakra, light-body and Kundalini flows.
6. **Black magic:** Hateful violation of spiritual sovereignty, enhanced by the psychotronic warfare.
7. **Bio-political, economic suppression:** Capitalist exploitation, meant to keep the populace controlled and subordinate, without real social/political freedom.
8. **Academic/cultural censorship:** Suppression of truth and academic freedom. Threatened and censored for speaking truth in public for a. *Parrhesia* vilified and persecuted intensely.

All in all, this scenario bears witness to the severity of the occult war that is ravaging the world. I think all truth-seekers can relate to one or more aspects of this suppression of spiritual sovereignty and freedom that are ongoing, and which have been in the making for many centuries, but this is the reality of the occult war. So we can conclude from this essay that our enemies are utterly violent and hell-bent: just think of Pythagoras, Socrates and Christ, who were murdered, along with countless other mystics and spiritual people up trough the ages, for example all the Norns and Valkyries, who were brutally suppressed for holding on to the ancient faith. All these mystics died for speaking the truth, parrhesia, for remembering who we are (Foucault, 2019). But the Hyperborean tradition will not be silenced. We are *the* force to be reckoned with, when considering resistance to the NWO, and when engaging with the prospect of spiritual enlightenment and liberation for all the good of mankind. We will end this essay by a call out to all our allies in the WO to further unite, organize and support the AO in our direct everyday confrontation with the principalities of darkness, who today wield a lot of real-political power, having slaughtered millions of righteous people along their way. But as we know, "history is a slaughter-bench", as Hegel (2011) said. But we shall be redeemed. Thank you.
